JAPAN.

Reports from Yokohama—Inspection and fumigation of vessels—Smallpox increasing—Vaccination of steerage passengers and crews required—Plague at Nushima and Osaka—Isolated cases of cholera in fishing districts.

Passed Assistant Surgeon Cumming reports, January 8:

Bills of health issued during the week ended January 4, to 3 vessels having an aggregate personnel of 365 members of crews, 51 saloon and 243 steerage passengers. The steamship *Jesseric*, for New York via Kobe and many other ports, was partially fumigated.

Smallpox is beginning to spread in this city, 8 cases having been reported yesterday and a total of 14 cases with 3 deaths since January 1.

All steerage passengers leaving here will be bathed, effects disinfected and vaccination required, and the same measures will be taken with crews.

Plague has reached Nushima, a small island adjoining Awaji just outside of Kobe. Osaka continues to be a dangerous center.

Isolated cases of cholera are still occasionally reported in outlying fishing districts despite the unusually cold weather.

Emigrants recommended for rejection.

Number of emigrants per steamship *Bellerophon* recommended January 8 for rejection: For United States, 4.

Per steamship *Iyo Maru* January 8: For Seattle, Wash., 2. Advised to wait, 14. Rejections and detentions were for trachoma.
